

# Removal of Land and Buildings from the Balance Sheet of the Board

(Document last updated August 2024)

## 1. Introduction

Land and buildings are in most cases the property of the patron/trustee.

Funds received/used regardless of source, for land and buildings are not reflected as fixed assets in the balance sheet of a school as set out in Section 15(3) Education Act – “For the avoidance of doubt, nothing in this Act shall confer or be deemed to confer on the board any right over or interest in the land and buildings of the school for which that board is responsible.”

Therefore, boards and patrons/trustees are advised to remove land and buildings from the balance sheet.

Where land and buildings are being removed from the balance sheet, a land/building fund account should be created into which the original cost of the land and buildings is transferred together with contributions towards the cost of these land and buildings.

This is a change in policy and gives rise to a prior year adjustment.

**Note:** *In the case of fee charging schools, it is advised to obtain advice from your trustees and auditor before removing land and buildings from the balance sheet. The accounting treatment advised by the boards and trustees’ auditor(s) will prevail.*
