

Other State Funding for a Land/Building Project

(Document last updated August 2024)

1. Introduction

Schools may be in receipt of other state funding for a land/building project. Such projects could include major construction/development projects, emergency works, additional accommodation, summer works or land purchase.

2. Accounting Treatment

Funds received/used for such projects regardless of source, for land and buildings are not reflected as fixed assets in the balance sheet of a school as set out in Section 15(3) Education Act – “For the avoidance of doubt, nothing in this Act shall confer or be deemed to confer on the board any right over or interest in the land and buildings of the school for which that board is responsible.”

Note: In the case of fee charging schools, it is advised to obtain advice from your trustees and auditor before removing land and buildings from the balance sheet. The accounting treatment advised by the boards and trustees’ auditor(s) will prevail.

The nominal codes to be used to account for the grant received, the expenditure of the grant and transfer of the income and expenditure to the land/building fund are set out below.

2.1. Grant income received

Action	DR/CR	Nominal Code	Description

	CR	3991	Other State Capital Land/Building Expense Capital & Reserves

Negative Building fund: Where a school has expended more funds on land and building than those received this will result in a negative or debit balance on the building fund. This is in line with the FSSU recommended accounting treatment.

2.4 Account for the unspent income from other state funding

Income from other state funding is ring-fenced income and the balance unspent at the year-end must be reconciled and accounted for in nominal code 2171 Other Ringfenced Grants Unspent.
