# Parents Association Fundraising for a Land/Building Project

(Document last updated August 2024)

## 1. Introduction

Schools may be in receipt of monies from parents' association fundraising for a land/building project. This money should be transferred to the school bank account as soon as is practicable.

#### 2. Accounting Treatment

Funds received/used for such projects regardless of source, for land and buildings are not reflected as fixed assets in the balance sheet of a school as set out in Section 15(3) Education Act – "For the avoidance of doubt, nothing in this Act shall confer or be deemed to confer on the board any right over or interest in the land and buildings of the school for which that board is responsible."

**Note**: In the case of fee charging schools, it is advised to obtain advice from your trustees and auditor before removing land and buildings from the balance sheet. The accounting treatment advised by the boards and trustees' auditor(s) will prevail.

The nominal codes to be used to account for the income received, the expenditure and transfer of the income and expenditure to the building fund are set out below.

**Negative Building fund:** Where a school has expended more funds on land and building than those received this will result in a negative or debit balance on the building fund. This is in line with the FSSU recommended accounting treatment.

## 2.4 Account for the unspent parents' contribution to capital projects income

Parents Association contributions for capital projects are ring-fenced income and the balance unspent at the year-end must be reconciled and accounted for in nominal code 2172 Other Ringfenced Income Unspent.
